

Hamilton's HA-47

is designed to service retail and commercial customers.

The HA-47 uses a unique carrier that customers find easy to handle. The carrier lies flat, opens square and accepts envelopes and documents easily. In addition, the carrier is large enough and the unit powerful enough to move substantial quantities of coin or other heavy objects.

*Hamilton's Tell-R-TV
two-way audio/visual
communications system
option is available for
the HA-47*

The HA-47's carrier lies flat, opens square and accepts envelopes and documents easily.

HAMILTON

Hamilton's New HA-47 Is "Customer Friendly" ... and heavy duty

The HA-47 features:

- **One touch operation** - just push the "send" button
- **Clear communications** - with customer service representatives through Hamilton's technically advanced audio systems
- **Two-way video option** - for remote customer service installations
- **High payload capacity** - the HA-47 carrier volume exceeds 300 cubic inches and rolled coin is handled with ease
- **Low-maintenance** - stainless steel and weather-resistant coatings
- **Easy installation** - in both new construction and remodeling
- **Hamilton Reliability** - unsurpassed in the industry
- **Convenient front maintenance access** - does not disturb traffic in other lanes

Teller Unit

Optional Tell-R-TV
